Chapter 1 -- Section 306/306A

Task 1.1 Coastal Zone Management

Technical Support

Information Technical Application Specialist and information system-- During this grant period, we continued to create enhancements and fix bugs in the new Aquatics Project Tracking System (which tracks 401 permits and Nationwides).

Development of Additional Outreach for SMA Guidelines-- The SEA Program continued to distribute outreach materials as needed during this grant period. This included copies of the guidelines, the economic impact analyses, and the Environmental Impact Statement.

Changes to web site to improve regulatory assistance-- The SEA Program made minor enhancements to the new Office of Regulatory Assistance web site which provides information on a variety of coastal and environmental authorities. The site can be viewed at <http://www.ecy.wa.gov/programs/sea/pac/index.html>

Chapter 2 -- Section 309

Task 2.1 Implementation of Legislative Changes to the Shoreline Management Act

SEA staff continued to work with local governments and refine our SMA guidance presented on our website. Our internet home page now contains a wealth of information and is located at: <http://www.ecy.wa.gov/programs/sea/SMA/guidelines/index.html>. This is the centerpiece of our guidelines policy and technical guidance. Among other things, the site includes guidance materials and step-by-step methodologies for SMP updates. The site includes a significant amount of new information. It also builds on and incorporates select portions of the old *SMP Guidebook and Manual*.

Chapter 3 -- Section 6217

Task 3.1 Managing Nonpoint Pollution in the Coastal Zone

Shoreline and Environmental Assistance Program Coastal Non-Point Work Plan

SEA-1 Watershed Protection

During this grant period, FFY 02 funds were used to fund watershed planning work in the Lower Chehalis Basin. The Chehalis Basin Partnership met in January, February, March, April and June. In April, they approved a watershed plan. Next, they will begin exploring how to move into implementation of the plan.

**Local Government Grants – Semi-Annual Progress Report
Reporting Period (1/1/2004 – 06/30/2004)**

Recipient	Type	Project Officer	Comments
Des Moines, City of SMP Update	CZM306 \$17,000	Sandra Lange End 6/30/04	In the last semi-annual report, we reported that the Des Moines SMP update would be funded with FFY02 funds (instead of the eliminated City of Bremerton SMP update). However, due to delays in the Des Moines' project, the funds were shifted instead to the Island County Beachwatchers project. Specifically, the funds paid for Tasks 1,2, and 4 of Beachwatchers' FY04 grant (ECY grant #G0400078)
Jefferson County Floodplain & CMZ Delineation	CZM306 \$20,000 G0300089	Cygnia Rapp Start 12/1/02 End: 3/31/04	Jefferson County completed all of the work under their grant, except for Task 4 "Update and adoption of standards". The task was not completed because the grant contract expired before adoption of the comprehensive plan at the end of 2004. (Adoption process must follow regular annual updates.) .
Jefferson County Shoreline Inventory	CZM 306 \$6668	Cinde Donoghue	Unspent grant funds from Jefferson County's Floodplain and CMZ Delineation project were directed toward Jefferson County's Shoreline Inventory Project (G0400078). Specifically, these funds paid for draft shoreline inventory work (Task 3), shoreline characterization (Task 4.1), and coordination costs (Task 1) associated with these two activities.
